

EDUCATORS

Welcome to Australia's largest, longest running, and **ONLY** curriculum aligned entrepreneur education program for primary schools.

Entrepreneurship education is a lifelong learning process, starting as early as primary school. It benefits students from all backgrounds because it teaches kids to think outside the box and nurtures unconventional talents and skills. It creates opportunity, ensures social justice, instils confidence and stimulates the economy.

Future-proofing the next generation

Our mission is to embed an entrepreneurial mindset in the next generation, equipping and empowering them with the confidence, resilience, creativity and critical thinking.

To date more than 14,000 children in almost 700 schools have participated in our programs nationally.

Our interactive programs allow kids to build innovation and knowledge capacity, stretch their creativity, get comfortable with risk and failure, and build resilience and confidence.

The curriculum content, format, activities and resources have been developed through collaboration between entrepreneurs, educators and childcare workers, to ensure we present the best balance between making business fun for kids while delivering key primary education learning objectives and imparting real-life business lessons

The program directly addresses the key learning outcomes and **General Capabilities of the Australian National Curriculum** across multiple learning areas:

- English
- Mathematics
- Design and Technologies
- Humanities and Social Sciences
- The Arts - Creative Arts

The curriculum encompasses the **General Capabilities:**

- Literacy
- Numeracy
- Information and Communication Technology Capability
- Critical and Creative Thinking
- Personal and Social Capability
- Ethical Understanding

The Cross-Curriculum Priority of 'Sustainability' features strongly in the curriculum. Students are introduced to a new way of interpreting and engaging with the world through entrepreneurship and social enterprise.

Supporting Educators

Confident Educators, with an understanding of the program are critical to its success.

As a result, for 2018 the program has been further simplified with new Lesson Plan Guides, Educators Handbook plus many other support features:

- Online Curriculum and teaching resources
- Webinar for educator support & development
- Professional development and training
- Enterprise and peer to peer connectivity through account at www.theentropolis.com
- Learning tools and apps
- A 1300 support line, live chat and dedicated email
